What we build

PART ONE

Voice AI

- ✓ Answers prospects and customers
- ✓ Collects trip details: pickup, drop-off, dates, and what's moving
- ✓ Answers your common questions
- ✓ Takes payment by texting a secure pay link during the call
- ✓ Books a call back and alerts your team

PART TWO

Text AI

- ✓ Same help, by text
- ✓ Collects the same trip details
- ✓ Sends the pay link when it's time
- ✓ Hands off to a person when a person is needed

Plus a form on your website. A prospect fills it out, and that starts a text or a call back. No chatbot on your site.

Not included: a new website, outbound sales blasts, or more than one phone and one text number.
